**Parts list**

Light/bracket with transformer(1)  
Pump assembly (1)  
Cable clips (1)

Bag of river rocks (1)  
Metal trays for rocks (1) for center mount

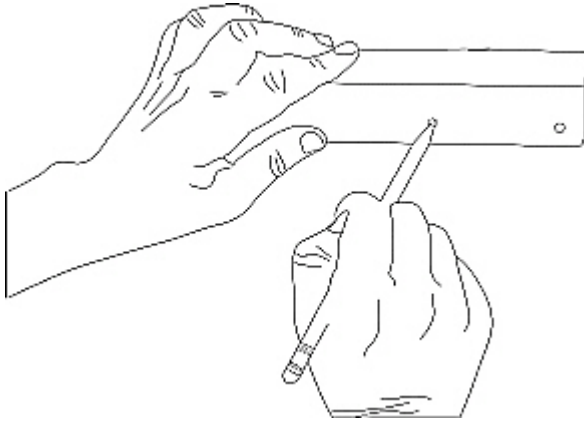

**Tools Required**

Level  
Pencil  
Phillips head screwdriver

**Wall mount instructions**

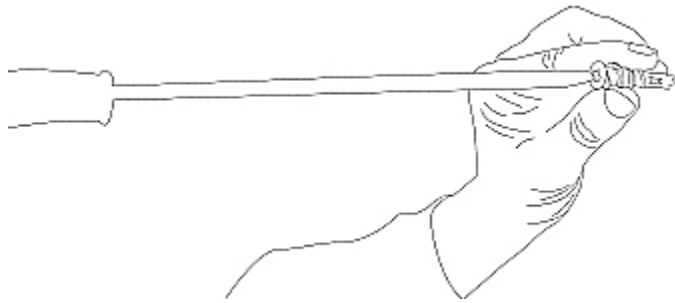

1. Determine the desired location on the wall; (The wall mounting bracket can be mounted without mounting to a stud, if you encounter a stud while mounting wall bracket, use the provided mounting wood screw. Use easy anchors for the holes without studs, each easy anchor holds up to 50 lbs).

2. Hold the mounting bar to the wall (The top of mounting bar should angle away from the wall and the holes should lay towards the wall). Mark the centre hole on the wall. (See Figure A)

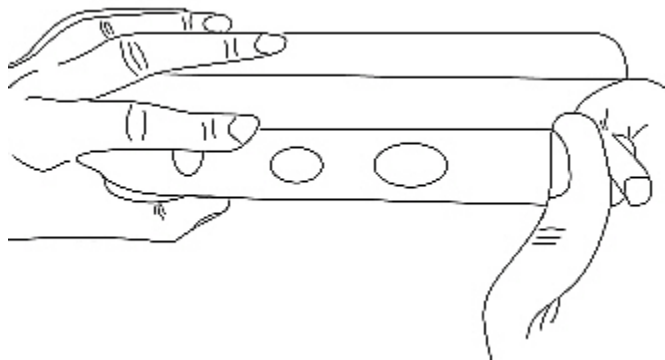

(Figure A.)

3. To install the easy anchor, gently tap the tip into the drywall, and slowly screw the anchor the rest of the way. Be careful not to over tighten, as shown in (Figure B).

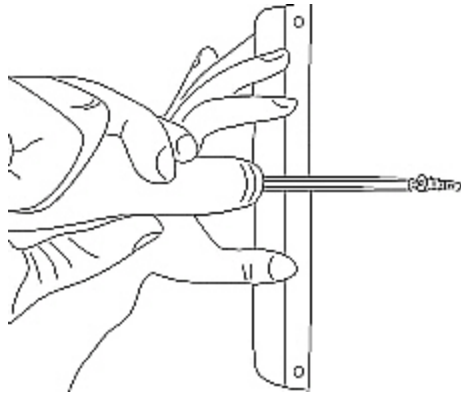

(Figure B)

4. Mount the wall bracket with the centre screw into the easy anchor from step 3.
5. Level the mounting bracket and mark holes at the side; See (Figure C).

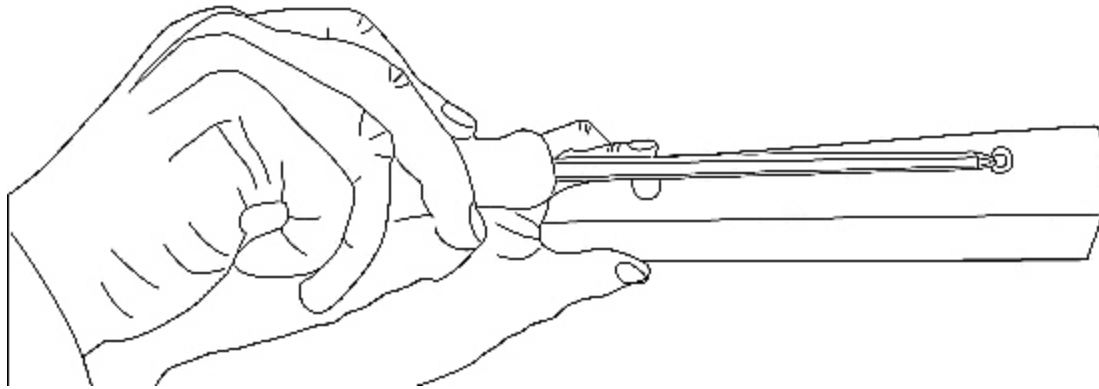

(Figure C)

6. Turn the bracket 90 degrees, install side anchors. (Figure D).

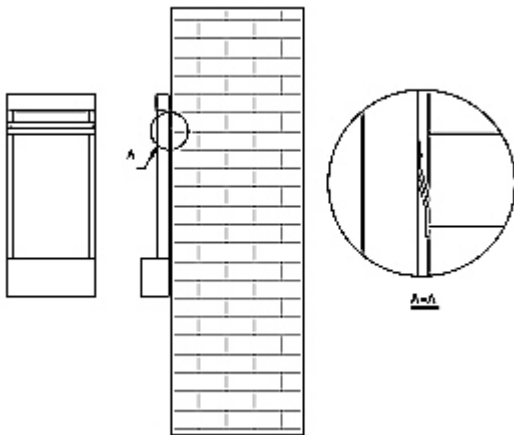

(Figure D)

7. Turn the bracket back to level and install screws, tighten all 3 screws.(Figure E).

(Figure E)

8. Lift into place and engage brackets by lowering the fountain onto the wall bracket. See (Figure F).

(Figure F)

9. Put the wall mount unit on the wall and fill with water.

10. Put the river rocks on the rock tray and plug in power. Enjoy your waterfall.
